CORONAVIRUS OUTBREAK

May God protect all our coworkers around the world from coronavirus, especially those in Asia and Africa (C nation, Korea, Japan). Africa has few medical facilities to check, confirm or defend coronavirus. Please keep praying for Africa and our members. Now many Korean churches have online SWS canceling public meetings. Please pray that through this epidemic incident, God's sovereign Rule be revealed. Those who persecuted Christ and his people may repent to acknowledge Christ as the Sovereign Ruler. The churches of God also may repent and have faith in God who is the ruler of all kings and the kingdoms on earth.

Argentina Summer Bible Conference

(2/22-25, El Sembrador (Maximo Paz)) – Marcos Kim

Although we had to host our SBC only 4 weeks after Brazil Bible Conference, God blessed us richly. The theme of the conference was “What are you looking for?” We prayed for more than 70 attendants and God answered our prayers despite practical difficulties. Since several members committed adultery and left our ministry last year and we didn’t have many new members. However, the early morning prayer we resumed in November last year has become a power source of a new ministry. Some brothers and sisters began to have daily bread every morning and others followed them. More and more people participated in the early morning prayer and God showed us a miracle through our invitation ministry. After the Brazil Bible conference we held on to God’s words like “Restore your first love” and “You give them something to eat.” We also kept in our mind how God enabled Israelites conquer Jericho as we prepare for SBC. Our members began to put these words of God into practice and experience the power. Some volunteered to serve life testimony, others paid registration fees for new members. Still others volunteered to serve musical and dancing. Missionaries served every part of conference program wholeheartedly after work. A total of 75 people (including 20 children) attended the conference and one missionary took care of little children sacrificially during the conference. Messengers served God’s words with all their hearts and everyone enjoyed the program and had wonderful fellowship. Although there were not many new faces, 12 people registered for discipleship course after the conference. We witnessed the fruit of our five loaves and two fish ministry through this conference. We pray to have 10 new members this year. Glories to God!

Bolivia 2 (Santa Cruz) Conference

(2/22-25, During Bolivia Carnival Feast) – Marcos Shin

We had a Bible Conference during Bolivia Carnival Feast. The theme of the conference was “Encountering Father God.” A total of 22 people attended the conference (including 15 students). I was little disappointed because more people participated in the recent Brazil Summer Conference from our chapter. Nevertheless, God’s grace overflowed in our conference. Most of all, every messenger made a sincere repentance and decisions of faith. They grew as stewards of our ministry along with life testimony speakers. Many students came and left in the past years but these young people remained and are growing as faithful disciples of Jesus. This was a great comfort to our missionaries. We are also very thankful because a missionary who had little coworking issue with us participated and served for the conference wholeheartedly. I repent that I did not give my whole attention to the conference preparation after returning from Brazil conference. Nevertheless, God has blessed us abundantly through life-giving words. I pray that I may continue to grow as a disciple maker and messenger. Thanks for your prayers!

Update of Jackie Solano (Riverside, USA) (By Roberto)

We received the results of Jacqueline's lumpectomy. God Almighty heard your prayers! The results came out with no cancer, which is great news. She's still not dismissed from the oncologist care though. She was required to have six-month follow-up checkups with ultrasound and mammogram to keep track of any future recurrences or changes and will probably start taking a pre-cancer medication treatment. Thank you so much to each and every one of you for your sincere prayers and material support to our family, our hearts have been deeply moved by your love and encouragement. Please keep on praying for her total recovery and that God may use her life and our whole family as a source of blessing for America.

Dr. Bill Pottenger of Lehigh UBF. (by Wesley Jun)

He has a tumor in his ear that must be removed because it keeps growing and eventually will potentially eat its way into his brain. It's not cancerous tumor that nonetheless keeps growing. Surgery is scheduled for next Thursday.

M. Stephanus Park (Bonn, Germany)

He was diagnosed with prostate cancer. There was some side effect after hydrogel injection treatment. Recent HDR-Brachytherapy was successful. He will be examined again in March.

Professor Kyung Hwa P. (Anam 2, Korea)

She recently had a surgery for cancer treatment. She removed 3/4 of her colon, and some duodenum, and stomach. She barely eats any food. In spite of her condition, she still has to teach and take care of her patients at the university hospital. (Professors cannot have sick leave according to the policy.) May God change the university policy so she can take good rest to be fully healed!
